My Dear Sir.

Your letter of inquiry relative to cert. in question is <sup>received</sup> ~~received~~; I return the letter herewith, as desired.

The question you ask me is a somewhat delicate one for me to answer; the writer is the son of a very dear friend of mine, who is a clergyman; he is himself a lawyer, and a grandson of "Old Billy Gray," or a great grandson, I am not sure which. He bears his name. I have however little doubt that the other can put him up to suggesting his name. I do not like the impression he seems to try to give, that he (the writer,) is connected with the Mass. Historical Society, for he is not; any request which should emanate from that Society I should hasten to gratify, and grant, if in my power; but you may be sure that they never ask but confer favors. Brooks may be a devoted student of history, but I think chiefly Church history; he may be a member of the Bostonian, or the New England Historic-Archaeological Society, as W. is, who has been troublesome in both.

As to the other man, well, he is in some way connected with the Egyptian Exploration Fund, and the only literary or Archaeological work I have ever known him to do, was to solicit by the public press, and private circulars, gifts for its objects; in this, largely due to the public interest in the matter about here, he has been quite successful, and that fact has won him the membership in the various Societies named; and also the numerous degrees, which he affixes; if you wish to know them all, look at the Litin. Church Almanac of the present or last year, which tells not where they

... is not entirely correct I think in their sources,  
often associated with his name he does not  
mention, which is A. S. S. I can't conceive for the life of me what  
he wants of all these titles; it does nothing to his influence, as  
he has none; but I forbear speaking at any length about the two  
men, both of whom are personal acquaintances, with whom I never had  
any differences; but I know of no reason why the A. & N. A. Soc. is  
under any obligation, in consequence of what either has done, to be-  
stow either Hon'y or Cor. Membership. You would find it very diffi-  
cult, I imagine, to discover any work of original research under-  
taken or accomplished by either. But I much prefer that your Com-  
mittee should act independently of any thing I might say, and must  
ask them to consider this entirely and strictly confidential.

I had written a much longer letter, expressing myself much  
more freely, but on second thought conclude not to send that. It  
would perhaps make it unpleasant for me, as we happen to be connec-  
ted with several organizations, of various characters, in which we  
all, I believe, hold membership; Please protect my confidence, and  
believe me

*Resolution -*

Whereas there is no more honorable way of perpetuating the history or the arts of design of a nation in the hearts and minds of its people than by the issues of its mints, either as coins or medals on account of their permanence and popular use, and

Whereas the appropriations of Congress for the United States mints have been ~~limited~~ *within the limits of the authorized* to all who have been concerned therewith, and

Whereas the growth of the metric system throughout the world renders it adapted to be united to our own decimal system and would thereby give our mint issues a world-wide circulation on account of their utility and beauty

Be it therefore enacted by The Senate and House of Representatives of the United States in Congress assembled that the Honorable Secretary of the Treasury be directed to appoint a committee of five persons to consist of two well known sculptors, artists, or medallists to be named by the Sculptor's Society of New York; two well known numismatists or medal collectors to be named by the American Numismatic and Archaeological Society; and a fifth, to be a recognised authority on weights and measures, to take into consideration all matters relating to the United States mints as appertain to the weight, design and execution of coins or medals for the future

Be it therefore enacted, that in order that the investigations of this Committee shall be of immediate benefit to the

public that the Honorable Secretary of the Treasury be directed to expend ten thousand dollars, five thousand dollars to be divided between artists or designers, and five thousand dollars to be divided among die-sinkers who are willing to compete for said rewards upon the conditions that the said Committee may indicate, one of which there shall be that the results of such competition shall be capable of being used by the United States mints.

Dear Sir;-

At the last meeting of the Executive Council of the N.S. S. the committee on improved coinage recommended the following address, viz:

To the Honorable John G. Carlisle,

Secretary of the Treasury, Washington, D.C.

Dear Sir;-

The National Sculpture Society begs you to consider the unsatisfactory coinage of the United States, and to use for the improvement of that coinage the great powers committed to you. No one of our national coins is at all good in design or in modeling. Some are better than others, but none are good, and the whole body of our numismatic art compares badly with that of any one of the great nations of Europe.

These opinions are not confined to sculptors. They are shared by all those, we think, who have made the fine arts a part of their education: that is to say by all educated men and women.

The importance of a really artistic coinage is great, first as worthily representing the nation and the people, second as asserting the nation's claim to be a cultivated and an enlightened one, third as affording a not inconsiderable series of lessons in artistic design and in the judgment of art to the whole community. A coin is either good art or bad art, it can hardly be of no effect. Each side of every coin is a bas-relief of good or of bad design. The effect upon the more observing members of the community of handling daily, and hourly, pieces which possess the power and the stimulus of strong and graceful sculpture can hardly

And if the coinage of Eurpoe has been named, it is not that the National Sculpture Society would be content to accept the numismatic art of any nation as sufficiently good, as answering fully all purposes of a noble coinage: the ideal of achievement must be set higher, and patient thought and unselfish effort must work toward a better coinage than we are now able to cite.

Dear sir:--

Your letter of the 6th. inst. received. I find on inquiry that letters you refer to as being addressed to me have been received during my absence, and it was considered that they did not require attention from me, as I decided some time ago to discontinue further payments of money in several directions where I was not interested and received no benefits; the society you represent being one of the number. I have never attended any of its meetings, and have never taken any interest in it.

Dear Sir: Will you do me the favor of securing my resignation of membership? This matter claims so much attention that I find it impossible to avail myself of the privileges offered; and although reluctant to relinquish my connection with this most <sup>valuable</sup> & important a field of knowledge, I believe that circumstances make it the wiser course to do so.

I appreciate the kindly feeling with which I have been met on the few occasions when I have visited the room of the Society, and shall ever remain

I have to acknowledge

the reply being very interesting

I have not hitherto turned

than those issued by the British  
Government; in fact the Hon.

at any time I should  
be only too pleased to answer  
any question on to English  
war materials or pieces of them  
as far as my limited knowledge  
of the subject will admit

I may add that the  
question I addressed to you  
as regards the Ohio arsenal  
was derived in spirit from  
'Noministic Circulation'  
some months ago.

is the only American medal  
I have, but I quite intend to  
make additions to it as the  
opportunities occur

There was a sale in  
London on the 8<sup>th</sup> when two  
medals, Nuptials of Princess  
amalie of Austria & Veterans  
of the Mexican War 1846 were  
sent to a dealer for 23 shillings,  
a Chilean Star for Lima campaign  
was also in the same sale, but  
that fetched practically nothing

*Mr. President and Fellow Members of the American Numismatic and Archaeological Society.*

This Committee was appointed January 18th 1892, to undertake the publication of the proceedings of the Society, from the time of the last publication—1887—to date.

Shortly after the Annual Meeting, March 21st, 1892, a subscription was started, to meet the expenses of this publication, and the cost of moving to our present quarters.

A fund of \$55 was already in the hands of the Society, which was subscribed, some time previously, for the purpose of printing proceedings, but never used, \$605 more was soon subscribed and paid in to the Treasurer of the Society, making \$670 in all, out of which the moving expenses and a small portion of the publication expenses have been paid, the balance remains in the hands of the Treasurer.

The present volume comprises the proceedings of the last five annual meetings—1888 to 1892. The History of the Society by the Historiographer, Mr. William R. Weeks, with Roll of Members and Officers, and the proceedings of the Numismatic and Archaeological Meetings with a number of papers that have been read before the Society.

While we are unable at this time to give the exact cost of this publication—a detailed report will be rendered at the next meeting—we can assure you that enough of the publication fund will remain to cover the cost of printing the Annual Proceedings of 1893.

The following is a list of the subscribers (old and new) to the publication fund:—

Frank Abbott, M.D.	Robert Hewitt,	Walter W. Smith,
Bauman L. Belden,	J. Coolidge Hills,	Russell Sturgis,

member of the Committee  
on Numismatics & Archaeology  
of the Am. Numis. & Archae.

I am sorry to say that  
I cannot accept the position

of Historiographer. My health is not at all good, and, during the Summer, I shall expect to be absent from the room of the society for a period of about four months.

After considering the matter with some attention, I have concluded that the burden and responsibility of the position are more than I ought to assume.

For this connection

Desire to express my deep appreciation of the compliment paid me in the appointment.

As a member of the committee of three on Numismatics and Archaeology, I will gladly serve, to the best of my ability.

My dear Sir, - You will  
- doubtless be surprised to  
hear from me after a man-  
- age of some months  
but pressure of business  
has prevented me from  
writing you this.

Mr. Doughty has been  
to send me a copy of his

paper clipping concerning  
an 1804 dollar. I've never  
seen there is in the state-  
ments I do not know, also  
an arrow-head from Gil-  
lespie Co. Tex. Remains of the  
age and design of a  
marriage are exceedingly  
rare in this part of the coun-  
try. It is one of three others  
in a collection of ancient  
remains of the same kind.  
The other two I am unable  
to find at the present  
but will send them together.

2  
There is the Dr. and I  
am under many obligations  
to you for obtaining same  
for me.

As to the case of Dr.  
Buckley, I was exposed  
in quite a lengthy article  
in "McKee's Weekly Chicago  
Tribune" but I am unable  
to find the copy. H. I read  
in a Sunday paper that  
he intended to leave his  
city to take a post-grad-  
uate course in dentistry.  
Enclosed herein a new

with some others at an early  
date.

I also send by same mail  
several pamphlets etc to  
your Librarian.

During the Christmas  
holidays I was engaged  
with Mr. Comr. of whom  
I have written to you.  
There is an investigation  
of the "Pastors" a miracle  
play of the Texas-Mexi-  
can Frontier. The work  
was done for Capt. John G.  
Loring and the Am. Folk-Lore  
Society. Reports concerning

ones are herein enclosed,  
and may prove of interest.  
The result of the investigation  
is to be published in a  
handsome illustrated  
monograph by the Folk  
Lore Society. A preliminary  
paper by Capt. Emek is  
enclosed.

Will you please send me  
the address of your printer.  
I have enclosed the  
for containing same and  
desire to write to him con-  
cerning a medal.

According to the report

I read your letter & was

I am unwell since some time and more since a

to go last Monday to the Society's room and shall stay at home

You would confer a great favour upon me if you would  
collect any time before Tuesday and my hour as I have

Dear Sir,

Your communication  
of 16<sup>th</sup> ult & informing me of  
my appointment to the office  
of Corresponding Secretary of  
the Society was duly received.

It should have been an-  
swered sooner than this but I  
trust that my delay may be  
excused as it was owing  
to the fact that I was

anyone to accept the  
office even though my  
father's judgment told me  
that I ought to decline it.  
I am now, prepared to say  
— very reluctantly, however —  
that I must decline the  
honor conferred upon me.  
I feel that my condition of  
health would make the  
execution of the responsibilities  
of this office to those men  
I already bear too burdensome  
some.

Thanking you and the

other members of the  
Executive Committee for  
the expression of your  
appreciation toward me. I

Sir. As my collection,  
now consists almost  
entirely of "Washington"  
Medals Corn. &c. I am dis-  
posing of the miscellaneous  
pieces which I have among  
which are 2 of the Splendid  
& massive "Lincoln" Medals  
presented years ago by the  
Society, one in Beige & one  
in Blue. Before disposing  
of the remainder, I have

occurred to me that you  
might know of some men  
here of the Board, who would  
like to purchase them.

I own some literal copies  
of them in every minute  
particular, reduced by the  
celebrated London artist.

Mr. Weyman, by an inspection of  
his own - of which it is  
said only 12 sets were struck.

6 Pairs - Silver, Copper & White  
Metal - 3 of each 23

Would be pleased to  
hear from you, remaining  
Yours truly

My dear Mr. Brown:

I received the enclosed communication from the Bureau of Education on Thursday. I suppose you are the proper person to answer it and accordingly send it to you, I have made out a list of the Society's publications which I send you I suppose to have the information done and so I thought I would send you the matter of looking it up!

I also send a few letters I found at the room one of which I opened as it was simply directed to the Society.

With kind regards I am

My dear Mr. Drowne;

Mr. Parish did not show up on Thursday last so I did not have a chance to say any thing about an Ex. Comm. meeting. It would have been hardly worth while any way as we are now so near the regular meeting.

The case for pamphlets is finished and will probably be delivered tomorrow.

I have not had a chance to call again on Mr. Smith, but hope to be able to do so before in a few days. If I get what information I want from him I will be pretty well fixed except the War of 1812 and Aztec Societies which I have not tackled yet. I do not know whether to bring in the Aztec Society or not.

Kindly remember me to Mrs. Drowne.

Will you kindly give me,

My President & gentlemen.

In the report of  
occasions which I have the honor of announcing  
this evening occur several which I may mention  
worthy of particular mention, and cannot but be of  
great service to ~~our~~ Society; ~~as much~~ as any future  
publication, to be complete, must make mention of them  
and where they are deposited; to obtain this result, however,  
our Proceedings should be published, without delay.

Many ~~of~~ of our members will remember the visit  
of the Most Rev. Archbishop Corrigan to our Columbian  
Exhibit last year and the kind interest he took in it  
by the loan of medals, ~~and~~ he has further surprised  
his ~~own~~ pleasure by a very valuable donation of 16  
Silver medals of Pope Leo XIII, one of each year of his  
Pontificate, and commemorating an important event ~~in~~  
each year; a ~~small~~ acknowledgment only <sup>has</sup> been sent  
his Grace, <sup>and</sup> I am sure the members will <sup>undoubtedly</sup> express their  
thanks at this meeting more fully.

Boyer's Work on the 15th Century seems to be  
familiar to you all - since it was published, so much  
~~new~~ material was collected that a new edition has been  
~~been~~ published lately with the idea perhaps that not  
much if any could be added to it - From the library  
of Mr Wm. Warwick of this City - two unpublished sermons  
are now added to our Cabinet: these little volumes are im-  
portant in the directions just mentioned as in

of great benefit to us.

Mr. H. H. Harris has been reported as  
meeting with the request to form a society unincorporated  
the 2nd of the next with resolutions from our fellow members  
Mr. Peterson and Mr. Wood. The society was organized  
added to count some unincorporated pieces added to the  
collection, from the former Specimens 1841 + 1852 2 from the latter  
1857.

Our President has also liberally remembered  
as you can see, many of the pieces being of great value  
especially in the English series.

The President Fabricius donation series in  
our Series of the "Age Historical Paper" of 15 new specimens  
not previously in the Cabinet and adds to the other series  
many new ~~pieces~~ <sup>pieces</sup>.

Of the 225 pieces donated but very few  
were duplicates and I consider this ~~set~~ <sup>set</sup> to  
consist of as valuable accessions as any that have  
had the privilege of bringing to your notice. I sincerely  
I thank you detailed list of the donors and their  
contributions.

Respectfully submitted

W. H. Bright

Librarian's Report  
Nov 19-1884

Mr. President Sir Gentlemen:

I take great pleasure in reporting this evening, the steady and continual growth of our library one of the most difficult problems presented to every Librarian is where to put the new acquisitions which so constantly arrive.

A couple of weeks ago we received a parcel containing eighty five, Trimmers for printed in this new present of by Messrs Daniel Smith & Andrew C. Johnston, John H. Dodd & Charles H. Wright, Charles Dyer, Herbert Melville & Russell Smith, William D. Weeks, John H. Dodd and Samuel L. Hildon. This provides space for the <sup>arrangement</sup> of a large number of pamphlets which are now piled on the shelves or tied up in bundles and we get no considerable much needed room for books.

The condition of books pamphlets we have to report since the last meeting (May 21<sup>st</sup>) we have received 103 volumes and 13 unbound volumes, 333 pamphlets of various kinds 181 periodicals and 746 catalogues, a total of 1346

Our President, Mr. Smith has given us 71 pamphlets and 369 catalogues pamphlets &c. from Mr. Isaac H. Wood we have received 21 volumes 54 pamphlets & catalogues &c. and a large number of letters and other papers relating to the history of the church and to various miscellaneous subjects. 3 Hymn volumes from Mr. Samuel P. Argy

In reply, the Secy of the Lib. Co. writes me saying  
that the hunting series now contains an extra 8<sup>th</sup> pt. & that  
volumes have been bound at a cost of \$16<sup>00</sup>. more are now  
in the binder's hands, and more will be sent as they come.  
The amount required is not sufficient, for all the binding  
needed it will be a great help, and, as there are still  
a number of duplicates on hand, it is to be hoped, that,  
it will be from time to time replenished.

He has a library of which we may well be proud. There is still much needed, and ~~it is to~~ we should all do what we can to forward this very important part of the Society's work.

Respectfully submitted  
Burrman L. Burr  
Librarian

Dear Sir, By this mail I have sent, by express, a collection of Bonanza Gold, which you will find of great value. It is a very creditable production in every way and gives a full and complete view of the variety and richness of the various kinds of the district. By next mail I hope to send you a more detailed description of the various and exciting life we had on the gold diggings in the early days of their discovery together with a few specimens of the various minerals etc. There is at present a great rush to the gold fields of West Australia and thousands are leaving this colony for there in a hope of the rewards to be won. It is certain to end in utter through want of water and provisions, but there is nothing so regrettable as it is possible to our colonists as a gold rush. Although the finds reported are in many instances of value is rich. They are generally confined to quartz reefs and consequently require a great deal of development and work. The capital required will be beyond the reach of our men, therefore large companies are only likely to succeed. I have been trying to collect old promises, notes, and other negotiable documents but with little success - I am, however, I will send you soon a collection of the same in my next dispatch.

Yours very truly

My dear Mr. Drowne: —

Your kind answer to my letter is received. Thank you for the information.

I have been in New York five or six times, but was not familiar with the city, and have nothing to call me there except that it is the metropolis and the gateway to a large section of the country. It is likely that I shall have to go to Philadelphia some time during the next month, and if this happens, I shall be very glad to turn my trip, if possible, so as to enable me to visit the rooms of the Society. You are very thoughtful to suggest the matter, and I am sure I should be glad of the honor of meeting you.

To explain the use of this stationery, I will say that I have just started to practice law with Mr. Pike, whose name appears on the paper.

I will write you if I visit New York.

Dear Sir:-

A large collection of engraved gems, old mosaics, pottery, and one miniatures, etc. have been presented to this Society by a gentleman who collected them during a residence of many years in Italy. They are to be sold for the benefit of this and four other related societies. The sale will be under the supervision of a large Committee of some of the first ladies and gentlemen of the city. A Catalogue is now in course of preparation for printing.

I write to ask if you would kindly furnish us with a list of the members of your Society in order that we may notify them of the approaching sale and give them an opportunity, if they so desire, to attend.

If your list of members is not printed we will gladly send some one to copy off the list by hand, at any time and place most convenient to you.

I received your note this morning. I have sent to Mr. Tonnele to learn the title of his paper and expect to hear from him to-day. The order will be sent to the printer for the tickets on Wednesday and I can let you have them surely on Friday.

I have also written to Mr. Dodd to inquire whether there are to be any other features embraced in the meeting, beside Mr. Tonnele's paper, and which should be stated on the ticket.

My absence from the city last week prevented me from being present at the rooms, on Thursday evening. Your list of kindred societies seems very complete and I think it would be just as well to include both the "Academy of Medicine" and the "Century Club". I can not at this moment think of any other society to add to the list. Wishing Mrs. Drowne and yourself a Very Happy New Year. I am
